Spotlight On Success

Jesus Flores
Aerospace Cell Lead

We're excited to spotlight Jesus Flores, who has been with InterLnX for over 15 years.

Before joining the team, Jesus spent 14 years in circuit board manufacturing. When his previous company shut down, a friend who worked at InterLnX reached out with an opportunity, and Jesus jumped at the chance.

Starting as an assembler, Jesus's role has evolved significantly. "I began with simpler assemblies, but over time, I moved on to the more complicated ones," he smiles. The biggest shift came when he took lead of the Aerospace Cell, responsible for our most intricate aerospace assemblies. "It was a big challenge, but it was incredibly rewarding to take on that responsibility and learn new skills," he explains.

For Jesus, there's a real satisfaction in seeing projects come together. "Every assembly has its own complexity, but I love the challenge of building something intricate and seeing it completed and ready for use."

Throughout his career, Jesus has been supported in his professional growth. "The company offers regular training and certifications, which have allowed me to take on more responsibilities and grow in my role." This commitment to development is something he values.

For those starting in the industry, he offers simple advice: "Knowledge is power. The more you educate yourself, the better prepared you'll be to tackle any challenge."

Looking ahead, Jesus says, "I want to keep performing my work with excellence, and outside of work, I focus on maintaining balance in my life with my family and friends. That balance reflects in my work."

We're proud to have Jesus as part of the team and look forward to seeing all the future successes he'll continue to achieve.

Open House

Please join us February 25th for our **open house** event. Talk with our dedicated team and learn more about InterLnX, we have some exciting details to share about our future.

We'll be hosting factory

tours at:

7:00AM

7:30AM

8:00AM

3:30PM

4:00PM

New Openings

We're excited to share that this year is off to a fantastic start for us. To help position ourselves for continued success, we're expanding our team with new positions. While we're a small company, we pride ourselves on cultivating a big-company mindset.
